

### *Top Reasons to buy enkompas Online Backup Services*

---

- 1. Unlimited license for the number of uploading systems.**

Back up as many computers as required using just one account. Home, laptop, business network, including servers – only the total amount of data is assessed in the account size.
- 2. Unlimited version history for all protected files.**

enkompas online backup keeps EVERY version of EVERY protected file FOREVER or until the account user decides it should be deleted. Last year's financial data, last week's meeting minutes – all immediately recoverable.
- 3. Unlimited local backup client at no extra charge.**

The enkompas online backup system includes, at no extra charge, a local backup module that is not limited to any data capacity at all. Using the same interface, this allows the user to have an online backup profile PLUS any number of local backup profiles each with different backup sets and rules; with no additional software to procure, deploy or learn.
- 4. Unlimited file sharing facility.**

Share your financial data with any accountant in the world or your photos with a whole team. The enkompas online backup system supports sharing single files or whole folders without email account limitations.
- 5. Unlimited file recovery operations.**

Backup is only worthy of the name if it's recoverable. With enkompas online backup you can test a backed up file's integrity every day, if you wish. You can even run synchronous recoveries to different systems
- 6. Unlimited access to full 24/7 Support helpdesk.**

Through email or ticket or phone, enkompas online backup has support consultants on hand at all hours to help when necessary. Whether it's finding your .pst file or mapping a drive for backing up, enkompas online backup Support will provide what's necessary.
- 7. Unlimited filtering facility for filename inclusion/exclusive in your folder selections.**

Select whole folders and allow the enkompas online backup cloaking to ensure that your account space is not wasted on the wrong file types. It won't matter if a "My Documents" folder has thousands of music files in it. enkompas online backup cloaking to 'include only' or 'exclude all' will ensure that your account space is put to its best use.
- 8. ENKOMPAS ONLINE BACKUP uses best in class security.**

With end-to-end encryption and compression that ensures that only you can recover your data. Only you can see your protected files, only you can access and open them; with triple layer encryption, best-in-class binary delta compression, and secure transmission, your data is safe off site with enkompas online backup.
